II. Facility Project Updates

No new updates available.

III. Committee Reports

- A. **Executive Committee:** Fatemeh Parsa distributed information that she received about the Student Affairs Open house on Nov. 13, New Student Orientation Leader applications and the International Food Bazaar.
- B. **Business Operations/Member Services:** Campus Recreation is testing wireless headsets for member services staff. In addition, they are investigating a brighter lighting system at membership services. Rod Chambers would like suggestions on

where to post comments and suggestions and an area to relocate the comment/suggestion box and workout partner flyers.

- C. **East Campus Recreation:** Sherri Tompkins met with Erik Kocher, consultant from Hastings & Chivetta, during his visit.
- D. **External Relations:** An alumni event is planned in conjunction with the flag football tournament and is scheduled to take place November 22. As far as GET REC'd is concerned, there are currently 60 vendors signed up and hopefully we will be able to have 120 vendors in total. The 3rd Annual GET REC'd will take place on January 23 and 24, 2009.
- E. **Facilities Management and Operations:** Bill Goa cooked 800+ hotdogs yesterday at the Mabel Lee Recreation Fields Dedication ceremony. Additionally, he has given his stamp of approval for campus recreation renovations. There is still discussion about what lights to use for Seleck and Burr recreation areas in order to make sure that the light isn't too bright for those who live around that area. Bill has meet with a consultant regarding the court surfaces at 14th & Avery and 17th & Vine Recreation Areas. Finally, the first free skate night was this past Sunday and approximately 200 skaters attended the event at the Ice Box.
- F. **Fitness & Wellness Services:** Because the strength training and conditioning room is so crowded, fitness and wellness services are considering the idea of putting equipment in residence halls. They are also considering converting a few racquetball courts as areas to put more equipment. They would like more open light for the future strength training and conditioning room. New dumbbells and weights are coming over winter break. Additionally, 25 people participated in Husker Challenge. Thursday, Oct. 30 is spook aerobics.
- G. **Injury Prevention and Care:** The windows in IPC have been installed, however IPC staff still does not think that they look as good as they should. There is a higher incidence of accidents this year, which may possibly be due to the increased awareness of IPC in their new location. There are still some issues with massage scheduling, and IPC staff are looking at new ways to schedule clients. The new massage room in Suite 230 is completely done, and Campus Rec is looking at many possibilities for converting the old massage room.

IV. Unfinished Business

- A. **NIRSA Nebraska State Workshop & Region V Student Lead-On:** The workshop is taking place on Friday, November 14 at the University of Nebraska at Omaha. Fatemeh Parsa will be representing the Advisory Council at this workshop.

Motion to Adjourn: Melissa Moraczewski moved and David Pelster seconded a motion to adjourn the meeting. The motion received unanimous approval.

Next meeting: Tuesday, November 11, 4:30p.m. 2008 in 55 Campus Recreation Center.

Respectfully submitted,

Emily Ives
Secretary
